YOUR SUCCESS IS MY SUCCESS.

I fundamentally believe that there is a formula for success in each and every area of our lives. Life has a strange way of giving us ups and downs, or the days we wake up and say today I am going to really change things, but by the time breakfast has come and gone we are back in that same old routine. We know that it will be another couple of weeks or months later when we begin the cycle again and say... 'today is going to be different'.

This is how I can help; I will bridge the gap between your want to change and making the change happen for you.

My name is Martin Boland. I have spent the last 15 years searching for solutions to perennial questions like -

- **What is the secret to wealth and abundance?**
- **What are the keys to happiness and fulfilment?**
- **What are the answers to life's problems?**
- **What makes a person successful?**
- **What makes a person motivated/How do we stay motivated?**
- **How does a person become a great leader?**

I have had and still continue to have a driving desire to understand. I have studied and practiced at various stages- philosophy, transactional analysis, rogerian counselling, NLP, meditation, religion and many other alternative therapies. I have attended numerous courses, learning and observing the secrets of what brings lasting success, to individuals and companies.

My success in creating success has covered an ever-widening field of the different people we are. From the boardroom, to sports teams, sales teams, business people, students all in all - people like you. I have studied hundreds of books, tapes and cd's to discover tools, techniques and philosophies that answer these questions.

So can I really help you? Well, yes I can, you know that as a person you work perfectly well, if you are then opened to new thoughts, behaviours, actions, feelings, awareness and identities, then change happens and a new life begins.

HOW MAY I ASSIST YOU?

- Would you like to design and create a better life; including career / life balance?
- Do you need more skills to advance your current career including your ability to sell your product or ideas?
- Does your image and presentation style needs improvement?
- Do you want to develop leadership
- Would you like to increase your emotional intelligence?
- You want more confidence and positivity?
- Would you like to get over nervousness or stage fright?
- Would you like to improve your love life or relationship?
- Do you want more motivation and less procrastination?
- Do you need to change negative emotions and habits?

Here are some of the many comments that people like you have said...

“ We have only been working with Martin for a short time but this has made an immediate and pronounced difference to our prioritisation, efficiency and all round mental clarity. Next we are working with him on creating a corporate vision and mission statement, we highly recommend his services. Thanks! ”

“ Since I've been working with Martin I have been able to focus. This may not sound very significant, but to me it is everything. My head worked like the chaos theory & I often found myself trying to move forward in every direction simultaneously, the ultimate effect of which was that I went nowhere. Now - thanks to Martin's help - I'm not only moving in the right direction, but I'm starting to accelerate too! ”

My next seminar will be on Saturday 23rd of June, between 10.00am and 6.00pm in the picturesque village of Wall, near Lichfield. I will develop your skills in how to achieve what you want, why you want it, and how to get it.

By helping you to clear the internal clutter that can hold you back and reducing the amount of stress and strain you feel. So do please do join me, this day will be an investment in you and will benefit your entire life and those around you.
